5-Cent Hike In Cost of Students' Lunches

4-Year Cafeteria Pact Approved; May Seek GC Asst. Superintendent

Inflation is expected to hit the Granite City school lunch program this fall, in the form of a five-cent hike. The school board authorized the change Monday night, subject to approval by the state superintendent's staff.

Present lunch charges have been 30 cents at grade schools and 35 cents at junior high schools and Granite City high school. The new 35 and 40-cent rates were voted 6-1, with Royce Timmons opposed.

Cause of the increase is budgetary needs following approval Monday night of a new four-year agreement for cafeteria employees, covering the July 1965-June 1969 period.

Instead of \$1.00 hourly pay for most cafeteria workers, \$1.25 for the top 11 in seniority in 1964, 65, there will be retroactive pay for 1965-66 on the basis of a five-year wage schedule, ranging from \$1.60 to \$1.85, \$1.70, \$1.75, and \$1.80 based on experience.

Five-year schedules for the next three years are to be \$1.85, \$1.70-\$1.90 and \$1.75-\$1.95. Wage costs are estimated at \$188,000 in 1964-65, \$212,000 in 1965-66, \$219,000 in 1966-67 and \$227,000 and \$234,000 in the following two years.

Administrative Staff

In other business, the board discussed filling a new position of assistant superintendent in the near future, with the new administrator working under Supt. Johnson during 1966-67 and then taking on major operational responsibilities in 1967-68. Johnson's final year before retirement.

In his last year, Johnson may be asked to spend much of his time analyzing school building needs and informing the public of the needs. It was brought out. The assistant superintendent probably will be obtained from outside the district, it was indicated. A third position, assistant to the superintendent, is to be filled by Bob J. Cook, previously an administrative assistant.

Action was withheld on a proposed new salary schedule for administrators, which was discussed in detail. It will be considered again next 22 or 29.

Business Workload Heavy

Possibility of creating a new purchasing or accounting position to ease the workload of Administrative Assistant for Business Victor G. Anderson was discussed.

A \$500 yearly increase in the 1966-67 pay of Mrs. Alma Irvin, director of cafeterias, was approved.

The board gave formal sanction to a three-year teacher agreement announced previously, and was informed by Supt. Johnson that he is attempting to schedule talks with custodians and maintenance employees.

Workers' compensation insurance coverage for the period beginning July 1 was discussed with action deferred to June 22.

County Vote Lightest In Years; 34,033 Total Down 11,000 from 1962

Only 30% of Madison county's registered voters went to the polls Tuesday in one of the lightest primary elections in many years, despite hotly contested races on the Democratic ticket.

A total of 34,033 voters—27,770 Democrats and 6,263 Republicans—cast ballots in the county's 184 precincts.

Four years ago, in the 1962 primary elections, a total of 45,057 voters were cast.

As a result, the vote cast in the Quad-City area this year constituted a deciding factor in naming candidates for the contested spots, since 40% of the entire county vote was balloted in Madison City, Venice, Nauvoo and Chouteau townships. A total of 13,774 votes was cast in these four townships. These included 10,000 Democratic and 3,774 Republican ballots. In 1962, the Quad-City vote was 15,850.

Most of the balloting throughout the county was concentrated on the Democratic ticket because of three major contests for the county offices of sheriff, treasurer and county school superintendent. The races were highlighted by efforts of the Madison-Venice Democratic machine to elect candidates these three county levels.

Harris Renominated

Under the accumulative system of voting, Madison county voters renominated Lloyd "Curly" Harris of Granite City and Leland J. Kennedy of Alton for state representative in the 55th district in a three-man race that showed only tooken in opposition to the third candidate, Sam P. Drenovac of Mitchell.

The race for state representative and the election of three members of state representative committee for the 55th district were the only contests on the Democratic ticket at the congressional, senatorial or representative level. All state officers running on the Democratic ticket, as well as the candidates for U. S. Senator, were without opposition.

In the 55th district representative race Madison county voters gave Harris a total of 27,358 votes; Kennedy, of Alton, also an incumbent state representative, 22,000 votes and Drenovac, 18,000.

Also at the district level, Madison county voters elected Christ Costoff of Madison, Robert M. Miller of Nauvoo, and Ralph L. Egan of Granite City as members of the representative committee, with total votes of 11,388 for Costoff, 10,000 for Miller and 8,000 for Egan.

Also at the district level, Madison county voters elected Christ Costoff of Madison, Robert M. Miller of Nauvoo, and Ralph L. Egan of Granite City as members of the representative committee, with total votes of 11,388 for Costoff, 10,000 for Miller and 8,000 for Egan.

The fourth and defeated candidate was Ron Nixon of Potosi with 5,789 votes.

The resignation was effective yesterday, and Harris left personal reasons for quitting the department. He could not be reached for comment, but it was reported that he is planning to move to St. Louis to seek employment through the Laborers Local.

Harris, an eight-year veteran of the department, was a member of the canine corps and also the Metro Major Case Squad of Missouri and Illinois.

The police department now has two vacancies.

GOP Write-Ins

Only one Republican precinct in the area showed competition, except for write-ins where names were written on the ballot. In Nameoki 3, James M. McNally elected Steve Nemeth 11 to 0. Clarence W. Cox Jr., also on the ballot, received no votes.

Winners in competitive Democratic precincts in Granite City township were John M. Winkler, 101 to 43 over B. J. "Bill" Mihm in No. 4; Andrew Gasparovic Jr., 100 to 30 over Earl Stan Kwiatkowski in No. 11.

Stan "Fuzzy" Jarrett, 173 to 24 over Patrick G. Malow in No. 14; William "Bill" Harrison 115 to 72 over Guy Cooper in No. 16; William "Bill" Warfield, 263 to 78 over Stanley, David Kuehne in No. 18; Bobby Ming 145 to 78 over Edward Walck and 59 for Mike Meljak in No. 19; James "Red" Worthen, 108 to 4.

(Chart on page 9)

Voters of the four Quad-City townships backed a winner in supporting George Musso in his bid for Democratic nomination as sheriff.

But, incumbent County School Supt. Wilbur Trimpe, seeking re-nomination, and Stephen B. Kennedy of Alton, running for county treasurer, were able to overcome the vote leads given here to their opponents, Russell G. Shaver and John Maeras, both of Madison.

Totals of the 54 precincts in the four area townships were—Musso 6218, Frank Harris of Granite City 4608 and Louis Bowman of Alton, 1005, in the Democratic sheriff race; Trimpe 4903 and Shaver 6707.

Local area totals in the treasurer contest gave 6468 to Maeras, 4354 to Kennedy and 442 to Peter Musso. In the county school superintendent race, Musso carried 10 of the 11 Venice township precincts, four of seven in Madison township and seven in Chouteau township.

MORE ABOUT County Vote

feated two other candidates, Frank Harris, a Granite City policeman, who polled 975 votes to 14,795 for Musso. Third candidate for the sheriff's spot was Louis F. Bowman of Alton, a former captain and chief investigator for Sheriff Barney Fraundorfer, who polled a county-wide total vote of 457.

Stephen B. Kennedy, Alton, a member of the county board, supervisors, edged out John Maeras of Madison in the Democratic race for nomination as county treasurer by the slim victory of only 538 votes. Kennedy, through a heavy lead from Alton precincts, received 11,366 votes. Maeras received a total of 10,818.

Pete Perica of Alton, also a county board member and third candidate in the county treasurer's race, polled 1661 votes in all of the county's 184 precincts to trail the three-man ticket in the contest.

Incumbent county school superintendent Wilbur R. L. Trimpe, who has held the post since 1959, beat out Russell G. Shaver of Madison in his race for re-nomination. Trimpe won despite the fact that the Madison-Venice Democratic organization gave its all-out support to Shaver.

Trimpe, in all 184 precincts, polled 12,967 votes, a majority of 1090 over the 11,877 cast for Shaver. In outer county balloting, Trimpe was easily re-elected, a two-to-one lead given Shaver in Venice township, heart of the Democratic area controlled by the Madison-Venice machine.

Douglas Renominated
In the Democratic primary at the state level, Madison county voters cast 28,570 ballots for incumbent U. S. Senator Paul H. Douglas, who is seeking his fourth six-year term. Douglas, Stevenson III, son of the late Illinois governor and presidential candidate, polled 22,410 Madison county votes, while Donald M. Prince of Bloomington, seeking nomination as candidate for superintendent of public instruction, polled 20,370 votes in Madison county. Prince, like Douglas and Stevenson, had no opposition.

Neither did Congressman Melvin Price, Democrat of East St. Louis, who polled 19,640 Madison county votes, excluding those areas that were taken out of his old district through redistricting. The redistricting deprived Price of the Alton area, but always one of his heaviest favorable districts. Unopposed for his 12th term, Price added 20,712 votes in St. Clair county.

Paul Simon, running in the new 3rd senatorial district for re-nomination to the Illinois Senate, polled 19,985 Madison county votes. He had no opposition.

On the Republican side there were no major contests, but a little interest by Madison county voters.

There were only two Republican contests at the state level, both of them involving only minor opposition by candidates running against the committee-endorsed proponents.

Percy Gets 5555
These involved the race for United States Senator in which Charles H. Percy of Chicago was running against Howard J. Doyle and Lar Daly, both only nominal candidates during the election campaigning. Of the 6263 Republican ballots cast in Madison county, Percy received 5555, Doyle received 201 and Doyle received 133.

In the other contest involving nomination to state superintendent of public instruction, incumbent Ray Page won easily in Madison county, polling 4275 to 1312 given his opponent, Robert A. Campbell.

Ralph T. Smith of Alton, running for his seventh term, also won easily over David D. Struharik, a 25-year-old SIU-SU campus student. Smith polled 8970 votes and Struharik 1067.

This is tantamount to re-election for Smith. The 5th district consists of the Madison county townships of Granite City, Alton, Venice, Collinsville, Nameoki and Wood River. Under a special agreement by representative committee-men, only one Republican and two Democrats were to be nominated. Since three representatives are to be elected from the district, nomination by both parties was tantamount to election.

A six-man race for three posts on the representative committee attracted only a light Republican vote. Madison county voters elected Allan O. Claus with 15777 votes; Dorren Young with 15543 votes; and Samuel Shackleford of Granite City with 1386.

Newsboy Missing; Firemen Dragging Long Lake Today

Long Lake volunteer firemen began dragging the lake at Ponson Beach at daybreak today on the chance that a missing Press-Record delivery boy may have drowned.

The boy is Dennis Bringer, 15, son of Mr. and Mrs. Charles Bringer Jr., 4051 Lake drive, Ponson Beach. His parents said he has not been seen since he left on his bicycle at 4 p.m. Monday to start his newspaper route.

The boy's bicycle was not found anywhere, but dragging operations began after it was learned that he had been fishing at the lake with another boy before starting the route. It was believed he may have resumed fishing later because of his earlier big catch.

The distributing company for the Press-Record, Granite City News Co., said an empty Press-Record bag was found in a phone booth at Briarcliff, but its ownership had not been verified. No complaints had been received of readers failing to receive their newspaper on Bringer's route.

The distributors said the Bringer family was a veteran on the route, had been very dependable and that there had never been a complaint.

His parents said he had never run away, and after he failed to return that evening, the family and neighbors conducted a search of the area before filing a missing report with the county sheriff's office at 2 a.m. Tuesday.

The boy is 5 feet, 2 or 3 inches tall, weighs about 115 pounds, has long brown hair and brown eyes and was wearing a blue and white striped pull-over shirt, black trousers and white tennis shoes.

**MORE ABOUT
Quad-City Demo**

In the four area townships were as follows: Walter J. Emde of Granite City for sheriff, 690; Peter E. Fuchs for county treasurer, 639; and James Bailey for county school superintendent, 674.

Robert T. Smith, a former Granite City news boy, won handsily in his bid for re-election to the state representative post—689 to 269 for David Struharik.

At the top of the ballot, Charles Percy with 742 votes outstripped his opponents for U. S. Senate nomination. Howard Doyle got 68 local votes and Lar Daly, 19.

Howard Rowe, unopposed for state treasurer, received 716 votes; while in the state school superintendent race, incumbent Ray Page received 535 local votes to 24 for Robert Campbell.

For Congress, John S. Guthrie received 708 votes here, and for the state central committee, William Stiehle received 694 votes. For the offices of Representative committee, the local votes were—Allan Claus, 387; Samuel Shackleford of Granite City, 495; John Jay Dick, 243; Allen Tile, 277; Ray Beggs, 221; and Dorren Young, 331.

Committee post were John J. Dick, 968; Allen Tile, 937; and Ray Beggs, 625.

Harris Rowe, unopposed candidate for state treasurer on the GO Pickett polled 5871 votes, and Doyle received 201 and Doyle received 133.

In the other contest involving nomination to state superintendent of public instruction, incumbent Ray Page won easily in Madison county, polling 4275 to 1312 given his opponent, Robert A. Campbell.

Ralph T. Smith of Alton, running for his seventh term, also won easily over David D. Struharik, a 25-year-old SIU-SU campus student. Smith polled 8970 votes and Struharik 1067.

This is tantamount to re-election for Smith. The 5th district consists of the Madison county townships of Granite City, Alton, Venice, Collinsville, Nameoki and Wood River. Under a special agreement by representative committee-men, only one Republican and two Democrats were to be nominated. Since three representatives are to be elected from the district, nomination by both parties was tantamount to election.

A six-man race for three posts on the representative committee attracted only a light Republican vote. Madison county voters elected Allan O. Claus with 15777 votes; Dorren Young with 15543 votes; and Samuel Shackleford of Granite City with 1386.

Neighborhood Youth Corps Work Starts this Week

The Neighborhood Youth Corps program began this week with the employment during the summer of 145 youths from economically deprived families in Madison county, including 50 from the Quad-Cities.

The Madison county Economic Opportunities Commission, which is conducting the program, received a federal grant of \$75,610 Monday to help finance the \$2,000 project.

The program is for youths from 16 to 21 years old who will return to high school in the fall. It is designed to help eliminate school "drop-outs."

The youths will receive basic work experiences with follow-up counseling and will be paid \$1.25 per hour to enable them to return to school in the fall.

Employment for the youths

was obtained by agreements with local agencies who will supervise their work. They include the Madison school district, the YMCA, Granite City Housing Authority, Venice park district, Venice school district and the East Side Levee & Sanitary district.

The NYC project director is Victor Darnell of Granite City who now lives in Edwardsville. He will have three counselors in the county who will provide counsel for the youths, their families, employers and work supervisors.

Mrs. Mildred Walker, also a former Granite Cityan, of Collinsville will be the counselor for the Quad-Cities and Collinsville areas. Cooperating in the local program will be Malcolm Thompson, director of the Illinois State Employment Service here, and his staff in addition to neighborhood workers associated with the EOC office in Venice.

Additional information on the program may be obtained by phoning or visiting the EOC office in the Venice city hall.

Typewriter, TV Set Stolen From School

A typewriter and a 19-inch portable television set were stolen in a burglary at Logan school, 2400 West 25th street, after 4:30 p.m. Tuesday. It was reported at 9:35 a.m. Wednesday by Lloyd Farley, custodian.

Entry was gained either by forcing the northeast wing door or by hiding in the school before it was locked.

MORE ABOUT

Primary Upset

Sheriff Barney Fraundorf's force who polled 4527.

Musso received 2298 votes in the 11 Venice township precincts, compared to 945 cast there for Harris. Bowman received 200 in the 11 Venice polling places.

Maeras was defeated by Stephen B. Kennedy of Alton, a retired Shell Oil Co. foreman and a member of the county board of supervisors.

Kennedy rolled up a county-wide vote of 11,356, with 991 of them coming from Venice township precincts. Maeras' total county vote was 10,818, with 222 of them cast in Venice township, which includes all precincts in the city of Madison as well as Venice. A third candidate for county treasurer who offered only token opposition was Pete Perica, an Alton glass company worker and a member of the county board. He polled 1661, receiving 61 votes in Venice township.

Shaver's defeat was a pronounced loss of prestige to the Madison-Venice organization, involving a special effort to defeat incumbent county school superintendent Wilbur R. L. Trimp. He received the most votes in the past years but was dumped this year in favor of Shaver.

In campaign statements Trimp claimed he was dropped by the organization because of his refusal to make large campaign contributions to the organization.

Trimp Wins

Trimp polled 12,967 votes in the county as a whole, receiving 125 in the 11 Venice township precincts. Shaver received a total of 11,877 in the county, 218 of them in Venice township.

Venice township voters cast a total of 3909 Democratic ballots and 81 Republican ballots.

Voting through Tuesday's ballot in Venice township was comparatively quiet, marked by only one major dispute in Precinct One where the polling booths were located in the Venice city hall.

Mangiaracino, committeeman candidate, charged a large number of affidavits for registration were filed there through the fault of the county clerk's office.

Miss Eulalia Rutz, Madison county clerk, said her latest reports indicated only a small number of such affidavits were filed and explained that some of the registration records had not been transferred to proper places in the registration books.

Precinct One was divided to become part of Precinct One. She said voters who resided within Precinct One in accordance with requirements of the voting law were entitled to vote by affidavit in such case.

Madison Police Chief Emmett Pavia and Sheriff Barney Fraundorf exchanged words briefly in Precinct Two where Fraundorf was campaigning. Pavia told Fraundorf he was campaigning by forcing the northeast wing door or by hiding in the school before it was locked.

Mrs. Julia Carmack gave opening prayer. Reports were submitted by group captains.

Mrs. Julia McLean, mission chairman, brought materials for making surgery bandages and the members worked on the bandages, which will be sent to Ghana. The members also signed cards which will be mailed to those in the church who are ill.

A discussion was held on a brunch to be held at Wilson Park at 9:30 a.m. July 12, in lieu of the regular meeting. Guests invited to attend will be members of the Lydia class and King's Daughters.

Mrs. Jerry Short gave the devotion, "Christian at Home," and Mrs. Graklanoff closed the meeting with a prayer entitled "When Tempted."

The remainder of the meeting was spent playing games, and prizes were won by Mrs. McLean and Mrs. Evelyn Fedora. Others present were Mesdames Blanche Blake, Pearl Vinson and Nelma Black.

Maeras Criticizes Identical Bids on Purchase of Salt

Identical bids from four firms on purchase of street salt for next winter led to heavy criticism by Mayor Stephen Maeras at a Madison city council meeting Tuesday night.

The bids were \$1.03 per 100 pound bag, totaling \$515. The Morton Salt Co., supplier last year, was awarded the contract. Other bidders were Diamond Crystal Salt Co., Cargill Co. and Gunther Salt Co.

"It appears somebody got together," the mayor said, adding that "it isn't fair to communities to get that type of bidding." The cost will be paid from motor fuel tax funds, and the mayor said the bid award was approved by the state highway division.

Lone bids were received from Maclair Asphalt Co., East St. Louis, for 75 tons of bituminous patching material at \$8 a ton \$800, and from Midwest Blacktop Roads, Inc., Collinsville, for 23,500 gallons of liquid asphalt at 17¢ cents, \$4017, and 300 tons of sealcoat aggregate at \$6.47 per ton, \$6340. The mayor said they are the only suppliers in this area.

To Purchase House

The council authorized purchase of a two-story house next door to city hall at 157 Third street after it had been offered by Jesse Hadley, the owner, for \$13,500. It has a 62½-foot front and 125-foot depth.

Mayor Maeras said the property will be used as a parking lot for some other city purpose. Two appraisals by real estate firms showed the amount to be a fair market value, the mayor said. A report of a preliminary meeting with representatives of Real Estate Research Corp., which is to make a feasibility study of possible uses of the Chain of Rocks Bridge, was presented by the mayor.

He said they were impressed with the layout of bridge property but agreed that it probably could not be used for vehicular traffic since access to the bridge would be an inconvenience to motorists. A toll-free interstate bridge is to be opened just north of the city-owned structure, possibly next month.

Motor Fuel Tax Audits

Reports of audits of state motor fuel tax funds were received from the state highway division auditor for the years 1964 and 1965.

They showed 1964 balance and income of \$81,351 and disbursements of \$38,781 for a balance of \$22,469, and 1965 income of \$36,729 from MFT, the \$22,469 balance and other receipts of \$259 for a total of \$48,448, with disbursements of \$39,256 for a Dec. 31, 1965 balance of \$16,192. The remaining \$259 for a balance of \$48,448, with disbursements of \$39,256 for a Dec. 31, 1965 balance of \$16,192. The remaining \$259 for a balance of \$48,448, with disbursements of \$39,256 for a Dec. 31, 1965 balance of \$16,192.

The mayor reported that caps for flagpole standards along Madison avenue were filled with solid materials and were inadequate to hold flags on Memorial Day. He said six new type aluminum hangers were ordered for \$33 and, if they prove satisfactory, other permanent holders will be purchased.

Sergeant to Captain Promotion for Ernst

A unique promotion from chief master sergeant to captain in one day was an experience for Vernon L. Ernst, who was commissioned today at Scott Base.

Ernst, who lives in Mitchell and is an auditor at First Granite City National Bank, was commissioned under the outstanding airman commissioning program for reserve personnel, which was announced today at Scott Base.

Capt. Ernst formerly was assigned to the 932nd Troop Carrier Group, a reserve unit, and now is an auditor with the 48th Military Airlift Wing. He will continue on his job at the bank and will pull a tour of duty once a year at McGuire AFB, N. J.

He is a veteran of 13 years in the reserves and 5½ years active duty.

Rev. Buls Elected To Third Term

Rev. Alfred Buls, pastor of Hope Lutheran Church, was re-elected to an unprecedented third term as president of the Southern Illinois District of the Lutheran Church-Missouri Synod at the organization's 38th convention which ended yesterday at St. John's Lutheran Church, Chester.

His extended term of office resulted from a reversal of laws that prevented the top officer from a third successive term.

Rev. Arvin Twietmeyer of Concordia Lutheran Church here was re-named for his second term as counselor for the 16 congregations. East Side-Collinsville Circuit. Local laymen present were Henry O. Wahrenburg of Hope Lutheran and Terry Rohlfing of Concordia Church.

In other action, the convention raised the investment interest rate to a maximum of five percent on church extension funds, and formed a committee for youth work on the church district's board of directors, naming Rev. Norman Gardeis of Cahokia as chairman. The latter will address youth groups at Concordia Church Sunday evening.

The original holders were purchased by the Madison Rotary club.

Transfer Bridge Funds. The council authorized transfer of \$50,000 from the bridge surplus fund to the city general corporate purposes fund, which will not receive tax money until July.

The firm of Marshall & Stevens was hired for \$50 to update appraisals of city property for insurance purposes.

The mayor said the city is still awaiting approval by the highway division of a low bid for water catch basins along Washington avenue. The bid, previously submitted by the Bituminous Oil Co., was above estimates set a year earlier.

The Illinois Parents Association of Lincoln School reported that \$88 was collected during recent tag day in the city to aid handicapped children.

\$200,000 Interest Earned on Invested Idle School Funds

Interest earned on funds from the 1964 Granite City school bond issue have reached \$212,169, and another \$36,451 will be derived from \$1,200,000 of the bond issue still invested, the school board was informed Monday night.

Investment of 1965-66 school operating funds has earned \$47,324, Administrative Assistant Victor G. Anderson reported.

The board authorized submission of an application July 1 for reimbursement of about 50% on projects totaling \$31,125 under the National Defense Education Act. Equipment costing \$25,430 and books worth \$5694 are to be obtained for English, reading, history, geography, civics, mathematics, modern foreign language and science courses.

NDEA vouchers for 1965-66 currently are being processed by Emerson Principal Dale Rea. The board authorized filing of claims amounting to \$4632 Monday night.

Art history books and art materials costing \$1129 are to be purchased with 20% or 20% federal reimbursement.

Approval was given to operate Project Head Start pre-school classes on the same basis this summer as last year. The program is financed by the federal government.

Site Development
A tone bid of \$18,532 from G. H. Sternberg & Co. was accepted on carrying out site development for 10 portable classrooms at five grade schools prior to a July 1 delivery date. The work will include water and sewer lines, foundations and electrical lines and transformers. Eight of the 10 rooms are being purchased under federal instructional programs.

A shortage of plumbers is causing concern about progress on construction of the Granite City high school cafeteria and seven classrooms addition, Supt. Russell D. Johnson said.

Installation of stainless-steel-framed mirrors at new Parkview grade school at an added cost of \$300 was approved. Carl Harrison, head custodian for Parkview, will be assigned there effective July 1.

Progress in negotiations for a Mitchell area grade school site was discussed.

Supt. Johnson announced transfer of Mrs. Hans (Ruth) Jensen, 901 East Chain of Rocks road, from a Mitchell second grade teaching position to a pre-school class of federally-financed Project Lift Off. Richard F. Miller, Worden, a Coolidge junior high biology teacher, will be transferred to a Lift Off counseling position.

Further efforts to obtain medical doctors to conduct physical examinations for cafeteria employees were planned.

2834 in Summer School
Summer school enrollment of 2834 was announced, including 1069 in elementary classes, 288 pupils, 418 junior high students, 903 GHS students, 69 in Project Lift Off, 39 in Project Carry On and 108 in Project Head Start.

The summer school staff consists of: elementary and gifted pupils, 91 teachers and four principals; junior high, 13 teachers and one principal; high school, 29 teachers; Lift Off, 70 teachers, two counselors, two nurses and a secretary; Carry On, three teachers and a consultant; and Head Start, six teachers, six teacher aides, two social worker aides, a nurse and a secretary.

Notice was received that a hearing has been sought by the attorney for a non-tenure teacher whose employment was not estimated at \$35. They were at continued. The appellate court the some about 25 minutes.

acted within its authority.

By a 5-2 vote, with Board Members George Moore and Daniel Linder opposed, the board authorized the Gasparovic Agency & King-Will Agency, Inc., to provide a \$2,000,00 school treasurer bond at a two-year premium of \$2703.

The previous bond, also provided by American Motorists Insurance Co. through a local agent, the Gitchell Agency, totaled \$1,000,000 and cost \$1331 for two years.

Andrew Gasparovic III, successful bidder this year, was employed by Gitchell at the time of the previous award. There were identical proposals this year from Gasparovic and Gitchell.

In addition to the two \$2703 bids listing American Motorists, there were two \$3656 bids from the Kaelgel agency (Illinois National) and Glyn Hodge Agency (New Hampshire Insurance Co.).

County School Supt. Wilbur 550 bids and advised the district to increase its treasurer bond from \$1 million to \$2 million.

Insect Control

On a 5-2 vote, with Linder and President Monroe Worthen opposed, a cafeteria pest control contract was awarded to Getz Exterminators on its bid of \$51.24 a month. Wood River Exterminating, low bidder at \$47.50 a month, failed to provide a re-insurance certificate.

Other bid awards were as follows:

Physical education equipment, \$6831 from 14 suppliers, with purchases ranging from \$33 to \$1796; kindergarten supplies, \$3553 from four firms, ranging from \$232 to \$2046; vocational shop supplies, \$15,375 from 28 companies, varying from \$9 to \$1498; work benches and draft tables, Cole Furniture Co. \$894; cafeteria paper goods, \$839 from seven companies, \$110 to \$1026; high-pressure aerosol insect killer, B. The nominations include contests for recording secretary, between Don Pareto and Edwin Gruen, for the office of treasurer between Theodore Moran and James Arnett, and for two trustee posts between Thomas Nesbitt, Arthur Griffith and Charles Baswell. Edwin Reiske was nominated for re-election as president without opposition.

The delegates also nominated Everett Morley for vice-president to succeed Annie Crook. He has no opposition. Other candidates without opposition are Helen Peters, financial secretary; George Guggus, guard; and Mitchell Gramovitch, guide.

The council also named Henry Rotter of Local 16 of the United Steelworkers to succeed George Amish as a member on the admissions and distribution committee of the United Fund.

Medicare Covers Home or Hospital Care

This is the second in a series of articles by Ralph Brasher, social security district manager in East St. Louis, on how Medicare will work when it begins in July. The social security office is ready to answer any questions.

There are two kinds of health insurance under Medicare: hospital insurance, which helps pay for certain covered hospital and hospital-related services, and medical insurance, which helps pay your doctor bills.

You may receive services covered by Medicare's hospital insurance in a participating hospital, an extended care facility (a skilled nursing home or a special part of a hospital), or in your home from a home health agency such as the Visiting Nurses Association. The doctor or person arranging for these services for you will know whether an institution or agency is participating in the program.

To participate in the Medicare program, hospitals, extended care facilities and home health agencies must meet specified standards which demonstrate that they provide high quality health care.

Discrimination Prohibited
In addition they must agree not to charge the Medicare beneficiary for services paid for by the program and they must abide by Title VI of the Civil Rights Act, which prohibits discrimination based on race, color, or national origin.

Hospital insurance payments will be made directly to the hospital or other organization

furnishing the services, by one of stay long enough to use all of the organizations, such as Blue Cross or a private insurance company designated to handle the Social Security Administration's claims. You show your health insurance card when you are asked about payment arrangements by a hospital, extended care facility, or home health agency. For example, if you go to a hospital, you will ordinarily show your health insurance card when you are admitted and will probably be asked to sign a form the hospital can use to make its claim for payment.

You will be notified whenever payment has been made for services you have received. The notice will show the number of days of care you have left in that part of a hospital, or in your "spell of illness" or the number of home health visits still available.

Benefits under the hospital insurance program are paid during a certain period of time, called a "spell of illness." This does not refer to any particular illness you may have, nor does it refer to a single stay in a hospital or extended care facility.

Your first "spell of illness" begins on the first day (after June 30, 1965) you receive covered hospital or extended care services. It ends when you have not been in any hospital or extended care facility for 60 consecutive days. Then a new "spell of illness" can begin the next time you receive covered hospital or extended care services.

Most people will not have to bother about trying to keep the details of this rule in mind. Usually, if you enter a hospital or extended care facility, you will not

**Capacity Attendance
For Venice Excursion**

A capacity crowd of 300 will leave the Venice landing at 7 p.m. Saturday aboard the Huck Finn excursion boat and will dock here at 9:30 p.m. following a 24-mile round trip downstream. A free barbecue picnic for those making the trip will follow on the Venice riverfront.

Venice Lions are the sponsors, and many other local organizations will be represented, including several planning similar excursions. Also attending will be river shipping and governmental officials studying development of the Venice landing area for pleasure boating and commercial projects.

Advance Shutdown Phone Co. Now Can Trace Source of Nuisance Calls At A. O. Smith

A planned five-week shutdown of production on assembly lines at A. O. Smith Corp. was advanced almost two weeks and started yesterday, according to N. R. Brink, plant manager. The proposed shutdown originally had been scheduled to begin June 27. Brink said the plant will work on Aug. 1 with a full work force. Approximately 1350 production employees will be off work during the seven-week conversion shutdown. The plant now employs about 1800 persons.

Plant officials announced plans for the curtailment two weeks ago, pointing out that production workers would remain off the job until both assembly lines were retrofitted for production of 1967 models. The plans manufacture Chevrolet auto frames for General Motors, Inc. In past years, work forces laid off during assembly line conversions returned to work in stages as the work was completed.

The shutdown period also will be used for inventory and vacation periods, Brink said Tuesday. In a letter to plant employees, Brink referred to reports concerning cutbacks in the auto industry to reduce inventory of 1966 models.

"These reports were accurate and our production has been curtailed sharply," Brink added, noting, "We have only one customer and if he doesn't buy there is nothing we can do with our surplus product."

Brink also observed that the firm had no notice that the cutbacks were coming and there was no opportunity to work out ways to minimize the effect of the loss of business.

"That's the kind of business we're in," he said, "If customers don't buy autos, we can't sell frames."

Census Bureau to Ask About Smoking Habits

Families in this area will be included in a nationwide survey of smoking habits as part of the June current population survey of the Bureau of the Census.

It will be part of the monthly employment survey. Persons 17 years old or more will be asked if they have smoked at least 100 cigarettes in his life, if he smokes cigarettes now, how many a day, if he smoked cigarettes three years ago, and if he has smoked a day at that time.

Persons also will be asked if they have quit smoking cigarettes for two weeks or longer during the last three years, how many times they have stopped for two weeks or longer, and the longest period of abstinence.

In addition, males will be asked about cigar and pipe smoking habits at present and over the last three years. Persons interested in working on the survey should write the Bureau of the Census, 226 West Jackson Blvd., Room 506, Chicago.

Central Christian To Dedicate Sunday

On Sunday afternoon, members of Central Christian Church, 2020 Johnson road, will dedicate their \$210,000 sanctuary. Dr. A. Dale Fiers, executive secretary of the International Convention of Christian Churches (Disciples of Christ), will present the dedication address at the 2 p.m. service.

Dr. Russell Harrison, executive secretary of the partnership of World Outreach Education of the United Christian Missionary Society, Indianapolis, Ind., will speak at the 10:45 a.m. worship hour as an introduction to the occasion. His parents reside in Granite City and are members of the church.

A crackdown on anonymous nuisance telephone callers was promised Tuesday by Southwest Bell Telephone Co. which said such calls that disturb phone customers "is of serious concern."

R. R. Shockley, vice-president of the company, said there now are several techniques for identifying the telephone lines from which offending phone calls are being given.

Where to Call
To report such calls, a customer has only to call Logan 1-800-4888 and ask for the business office of the area in which he lives.

Special training on how to counsel and add customers who receive annoying or harassing phone calls is being given telephone employees.

When the telephone becomes a source of annoyance or terror to even one customer, it is a major source of serious concern to us," Shockley said.

To discourage such calls, he added, phone customers should: 1—Hang up if the caller doesn't say anything, or at the first obscene word. Hang up if the caller doesn't properly identify himself to the customer's satisfaction. Do not keep talking as this only encourages the caller to persist.

2—Call the telephone business office if annoyance calls persist. If a threatening call is received. The company will cooperate fully in dealing with the problem.

3—When a number of calls are received, keep a log of the dates and times of the calls. Try to list the background noises or other clues that might assist investigators.

4—If a threatening call is received, keep a log of the dates and times of the calls. Try to list the background noises or other clues that might assist investigators.

Confidence Man Tries Here Again With Bank Ruse

Mrs. Florence Thomas, 2441 Delmar avenue, reported Monday afternoon that a man claiming to be an officer of the Granite City Trust & Savings Bank asked that she come to the bank as soon as possible as there was a blurred number on her bank book.

She said he offered to pick her up if she had no other way to there, but she refused. She said the man had a "very clear and nice voice."

She later contacted the bank officer who told her that he had not called. He assured her that her account was in good order and requested that she inform the police of the attempt. Several other attempts were made recently by a confidence man to cheat women of their money and one try here was successful. The same trick netted the confidence man \$7000.

State Trying Wasps To Combat Weevils

Large numbers of adult Tetrastichus wasps, insect enemies of the alfalfa weevil, were recently released in nine southern Illinois counties by entomologists of the Illinois Natural History Survey and the University of Illinois College of Agriculture. The Tetrastichus wasp, a native of Southern Europe, is a deadly enemy of the alfalfa weevil larva, a small green worm that feeds on alfalfa foliage. The tiny female wasp, about 1/16 inch long, deposits as many as 20 eggs in the body of the weevil larva, which soon dies. Larvae of the parasite hatch from the eggs and feed on the body contents of the weevil larva. Dr. W. H. Luckmann, head of the survey's economic entomology section, said it is too early yet to determine how much was accomplished by similar releases of the parasites last spring near Cave in Rock, Vienna and Carbondale.

Students Give High Rate To University Campuses

Although wishing a somewhat greater voice in administrative decisions, an overwhelming majority of Southern Illinois University students rate their school highly.

These are indications of answers to a questionnaire administered to more than 13,000 Carbondale and Southwestern Campus students by an SIU student-faculty commission hoping to learn more about student views. Slightly more than 90% of the students rated the overall quality of educational opportunities at the SIU as "very good" or "excellent," and an additional 44% as "satisfactory." Only 3.9% answered "poor."

More than 90% of the students rated the quality of SIU instruction from "satisfactory" to "excellent," 87% rating degree and course offerings the same way. Academic standards were judged "satisfactory" or higher by 88%.

Greatest area of discontent shown by the students was on a section of the questionnaire devoted to "Student Rights and Responsibilities." Sixty-two percent felt the extent to which student opinion influences university policy is insufficient.

The student body was divided,

however, as to whether the policy of "in loco parentis," making the university responsible for the student when he leaves parental shelter, is wise. Forty-six percent felt it an unwise policy, 37% supported it, and 15% expressed no opinion.

Students on both campuses felt informal student-faculty contact outside the classroom was insufficient, although a majority on both campuses said teachers are readily available for consultation.

Student services and facilities in general were rated well, one exception being parking, on the Southwestern campus, with primarily a commuter population, 61% rated parking facilities as inadequate. At Carbondale, where most students are not permitted to bring automobiles to campus, 75% found parking inadequate.

Students on both campuses voiced strong support for the university's practices of renting rather than selling textbooks to undergraduates and most rated library facilities as "satisfactory" to "excellent."

The 10-question questionnaire was administered by the student-faculty commission to study the Role of the University in Society and the Role of the Student in the University.

YMCA'S 1750TH NEW MEMBER since January 1966 was Kathy Hutchinson, daughter of Mr. and Mrs. James Hutchinson, 4908 Kirkpatrick Homes, shown with Dave Williams, youth director. She received a T-shirt upon registering for the summer season. Registration will be open through Saturday for the summer schedule.

Maintenance, Industrial Arts School System Posts Filled

The Granite City school board Monday night named Tully A. Heubner, Mendota, Ill., as new school district maintenance superintendent and James D. Reid, 3341 Johnson road, as industrial arts supervisor.

Heubner, who succeeds School Engineer Marvin Dean, was one of about ten applicants for the position, in which he will supervise repair and maintenance of buildings and grounds. He is to begin work here July 15.

Heubner, about 40 years old, holds bachelor and master degrees from Western Illinois University. A teacher for three years in Elmwood, Ill., he has been business manager of the Mendota schools for four years. He has a wife and children.

In promoting Reid from a Coolidge junior high school in-

dustrial arts teaching position, the board created the post of supervisor of industrial arts. He will work under M. A. Wittvrongel, administrative assistant in charge of vocational and adult education.

Neighbors Resigns
The position of assistant director of adult education vacated by Bobby Neighbors, Belleville, will be left vacant for the present. It is planned to name a part-time evening school assistant.

The resignation of Neighbors, who will become a teacher at Cahokia high school, was accepted Monday night. He cited a need to spend more evening time with his family while the children are of elementary school age. His wife teaches in Cahokia.

Reid will have responsibility for industrial arts curricula, supplies and equipment, and will supervise the work of the 17 junior high school and high school industrial arts teachers.

Two Teachers Retire
Other resignations accepted by the board were those of Miss Irene Stocker, 16 Terrace lane, Lake school third grade teacher, who is retiring; Mrs. Ray (Priscilla) Cates, 1710 Fourth street, Madison, Webster school second grade instructor, also retiring; C. Ray Watson, 2000 St. Clair avenue, Wilson school sixth grade teacher, who will teach in the Macomb school district; Miss Aris, Arizona State bachelor degree, Delta Rose Dickman, Norrandy, Mo., a speech therapist, who is to Granite City high school social studies.

Principal speaker will be Nathan H. Knorr of Brooklyn, president of the Watch Tower Bible and Tract Society. Climax of the gathering will be June 26 at 3 p.m. when Knorr speaks on "What Had God's Kingdom Been Doing Since 1914?"

Scaglione has been associated with Jehovah's Witnesses for 19 years. He was publicly ordained in 1946, and in 1956 began serving as a circuit supervisor which

SIU Uses 'Earthy' Facts To Solve Space Problems

Southern Illinois University researchers at Carbondale, probing problems of design for outer space, have turned for help to the most basic source available—mother nature herself.

With support of the National Aeronautics and Space Administration, engineers in the SIU School of Technology are investigating possibilities of applying some of the built-in mechanisms of plants and animals to structures needed in space missions.

One possible development, for example, is a non-parachute drag mechanism for making air drops, similar to that on a dandelion or milkweed seed. Another is use of a thin metal tension member to support an antenna web, much as a spider uses a coiled leaf to keep his web taut.

"Man is pretty primitive in his design efforts," explained Juman

H. Lauchner, dean of the SIU School of Technology and principal investigator in the NASA project.

He uses a 4000-pound automobile to transport 180 pounds. He builds a house and brings in electricity when there is fantastic energy in the earth beneath his feet and in the sunlight outside.

Lauchner stated that if researchers can rightly interpret some of nature's designs, it will be easier to take care of man's needs for food, clothing, shelter, communication and transportation, whether man is on earth or exploring outer space.

Although the NASA supported project has studied structural designs and concepts for space since early 1964, researchers are free to explore development and application of known principles of design.

2 School Board Vacancies to be Filled June 22

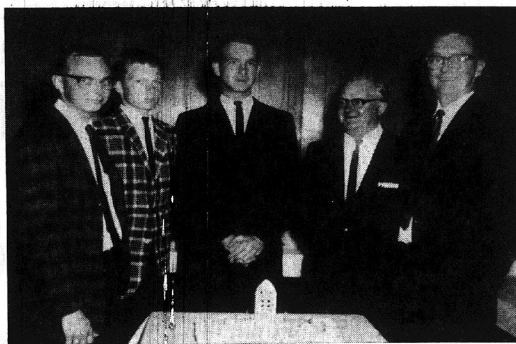

Appointment of two new members of the Granite City school board is expected to take place at the board's next regular meeting at 7:30 p.m. Wednesday, June 22. One position is rural and the other is urban.

The board also will meet on June 22.

Board members told the Press-Record that the list of possible appointees under consideration has been narrowed to several names.

The decision will be made by the five remaining board members, President Monroe Worthen, Dr. E. W. Walton, secretary, Treasurer Ronald Dillard, George Moore Jr. and Royce Timmons.

There was a time when possession was ten-tenths of the law. No more. When you buy real estate today, the land has probably been owned by dozens of people down through the years.

And every time the land changed hands there was a chance for a fraudulent signature on some document, an undisclosed claim against the property, or a mistake in record-keeping.

That's what title insurance protects you against. If you have a Chicago Title and Trust Company title policy and somebody should dispute your ownership, our company will secure local legal counsel and defend your title in court if necessary. If the claim is upheld, Chicago Title and Trust Company will pay your loss promptly up to the full amount of the policy.

The Tax Rate Story Assembled Faced Similar Rate Problems in 1951

(Third of a series)
In 1951, the Illinois legislature faced much the same challenge that it will face in 1967—the need to revise its property assessment and tax rate laws, a Press-Record analysis has shown.

The situation in some ways was more crucial then because of a specific deadline beyond which unrevised rate limits would become distorted and unfair.

No such deadline currently exists, other than the likelihood of a move for outright repeal of the Butler Bill if it is not passed by the legislature before the end of the year.

Formula Scheduled to End
The General Assembly in 1951 was confronted with the fact that the formula provisions of Section 162a (Chapter 120, Illinois Revised Statutes, 1955) were due to expire Dec. 31, 1951.

It had been expected that local-level governmental agencies would adjust their tax rates to conform with the formula by referendum prior to this time, but most had not done so.

If the formula was allowed to expire on Dec. 31, 1952, and the second part of the Butler program came into play (1945 rates cut in half), taxpayers would be hurt.

For example, the general corporate fund limit of Sangamon county would have jumped from 7 1/2 to 12 1/2 cents; in Lake county, from 4.6 cents to 12 1/2 cents. On the other hand, the corporate fund rate of the municipality of Hardin in Calhoun county would have been reduced from 36 cents to 8 1/2 cents.

School Tax Separated
Concluding that Section 162a must be amended, the General Assembly (1) exempted the funds of school districts by placing them under restrictive tax rate limitations in the Illinois School Code; (2) extended the formula provisions of Section 162a to Dec. 31, 1953; and (3) added Sections 162b and 162c to the Revenue Act.

In 1947, the legislature added a section to the statute (Chapter 131, Section 1.23) called "The General Revenue Law of Illinois" and then by a series of 90 bills of local laws (previously subject to 162a) subject to the revenue law.

The title, General Revenue Law of Illinois, as now amended refers to the 1959 Revenue Act, filed May 17, 1959, as amended, plus all existing and local amendments and modifications of it, and all rules now or later adopted pursuant to its authority.

Net effect was that in the future, Section 162a could be amended and new sections added, and the various tax rates would still be subject to such amendments and added sections.

Over the years there has been considerable "pecking away" at the assessment and rate laws—in some cases with justice and in other cases with little or no cause.

(Next issue: Pecking at the bills.)

Wheat Allotments To Be Set for 1967

A new farm wheat allotment may be established for the 1967 crop year for farms that did not have a 1966 allotment and meet eligibility requirements.

Local Discretion Needed
The library building fund rate law ruled unconstitutional in 1950 Illinois Supreme Court case, leading to the major amendments of 1951, had called for the legislature to fix the permanent rate limit, rather than permitting local discretion in fixing the limit.

As enacted, Section 162b outlined the procedure to be followed by all taxing districts except school districts in establishing maximum rates for each taxable fund, by action or inaction on the part of the county board, prior to Dec. 31, 1951 (at the 1952 annual tax meeting for townships).

Each district whose funds were subject to the General Revenue Law of Illinois was required to pass a resolution by Dec. 31, 1951, setting the maximum rate for each of its funds.

If the local governing body decided to set a higher limit than the limit in effect at the time of passage of such ordinance, it was necessary to have an election approving the increase.

10% Bonus in Same Rate
Exceptions to the referendum requirement were increased up to 10% in the corporate fund rates of cities, villages and incorporated townships. These increases of 10% or less were subject to "back-door" referenda.

If a local government passed an ordinance or resolution setting the rate limit for a fund at

River Road Increases Need for Improved Traffic Control, Connecting Arteries

The unanimous vote approving the agreement on construction of Federal Aid Route 151 showed that members of the Granite City government can place an overriding municipal need above partisanship.

A similar major need fast developing is improved traffic control and access, much of it related to Route 151. Similar willingness to give the public top priority is essential if the Great River Road is to be of maximum benefit.

Specific actions that need to be taken are not yet fully known. A good immediate step would be implementation of the roadway study, revision plan to encourage motorists to visit, not stay away from, the downtown business district. Present congestion along narrow streets is bad and getting worse.

Aid by Route 151, Route 162 and a proposed north-south access road perhaps paralleling the main railroad tracks, may, convenient traffic links to other parts of Granite City can be established at small cost.

Net effect can be division of traffic among several alternate routes in each direction, expediting vehicle movement and reducing hazards to pedestrians and persons occupying autos. At present, too much traffic is being handled by one or two major arteries, causing frustration, hazards and needless waste of time and money.

One or two grade separations may emerge as especially important once new traffic patterns take shape. New arterial and connecting streets are certain to fit into the picture somehow.

An imaginative, constructive approach—with council members aided by the traffic engineer and citizens' traffic committee—may be created—can work wonders in bringing order out of the confusion and congestion that currently exist.

Headway already has been made. Much more progress is vital if the dollars invested in new highways and streets are to go to work for rather than against local residents and taxpayers. Statesmanship, with political considerations put aside, can achieve solutions that will deserve the appreciation of the entire community.

GI Joe Still Going Strong at 191

The 191st birthday of the U. S. Army this week is doubly meaningful to Quad-Cityans. We are being defended in Vietnam and elsewhere by soldiers' most potent weapon is a meeting of the mind and the Granite City Army Depot has been an integral part of this community for two and a half decades.

When the army was founded in 1775, the Army serves as the chief bulwark of freedom for this nation. And the combination of our military and moral force has become the chief hope of those throughout the world who value justice and liberty.

Levee Sites to Become Recreation Areas

Efforts by Levee Commissioners Grant and Ebersold to convert some of the East Side Levee District property into sites to greater public use are beginning to bear fruit.

In addition to its role to lease a tract of land needed by the Tri-City Regional Port District, the levee district plans to establish park and recreational areas at four well-chosen sites that include a century-old cemetery.

With manpower provided by the federal Youth Corps, the improvements can be carried out without expenditure of property taxes.

New Weapons to Fight Crank Callers

Quad-Cityans who have been plagued with telephone pests of varying kinds, some of them insulting or threatening, will be pleased to see the Southwestern Bell Telephone Co. decision dealing with on callers who use the anonymity of the phone cables to make nuisances of themselves.

When dial tone went into effect, most of the previous safeguards against such conduct were lost, and crank calls became a problem throughout the nation. Now that several new techniques have been developed to identify specific telephone lines carrying harassing calls, the increased possibility of arrest and conviction may provide the deterrent that has been lacking.

IRS Tax Practitioner

Exams to be Given

Persons who wish to take the enrollment exams to qualify to practice before the Internal Revenue Service may obtain application forms at the Springfield district office, it was announced today by Jay G. Philpott, district director of Internal Revenue for central and southern Illinois.

The examination will be given in the Springfield district office on Sept. 26 and 27, for those tax practitioners who are not currently enrolled. Certified Public Accountants or qualified former IRS employees.

The right to represent clients in tax and other matters before the Internal Revenue Service is limited to those who meet standards of technical proficiency and ethical conduct established by the Treasury Department.

Philpott said that applications for the exam should be sent to the District, Audit Division, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C., by Aug. 31. Applications should be accompanied by a fee of \$25.

Those who are going to be paid by the Internal Revenue Service to prepare returns for others are not eligible to take the exam.

Philpott said that the exam is a test of the knowledge and skill of tax practitioners. It is not a test of the ability to pass an exam.

RANDOM DUMPING on property being leased by the Tri-City Regional Port Authority along Rock road, west of the levee, not only is unsightly but is causing problems for the Port District which presently is

carrying out a program to fill low areas for development. This dump is to be cleared this week and is only a few feet outside Granite City.

Dumping Plagues Port Authority, Residents of Area

Local, county and even state authorities have been called upon for help by the Tri-City Regional Port Authority in an effort to halt the dumping of trash and debris on port district-leased property over the old East Side levee at Rock road.

The port district recently announced that anyone caught dumping debris in the area will be arrested and will be fined. The district is not alone in voicing complaints.

Residents of the area also are up in arms. The areas are only a few feet outside the city limits of Granite City.

Commander John Barron, manager of the port district, said a contractor is to level some of the areas being used for random dumping and the work may be carried out this week.

The tracts being leased by the old East Side levee and the canal levee and are low-lying.

The contractor has been hired, broken concrete to provide a firm fill for raising the low sites for future development as the nearby harbor facilities on the Chain of Rocks canal are expanded.

Jim Harsh to Advise Roca Club in Summer

Roca Young Men's Club has a new summer advisor, Jim Harsh, who began his duties at a meeting Tuesday night.

During the meeting, Diane Kinney was saluted as "Teen of the Month" following her selection by the club. She was vice-

dictorian of the Granite City high school graduating class. Roca has selected six new "Sweetheart" candidates who will be announced at a later date. The club softball team reported a one-and-one record due to an upset in its first game.
